

Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_82727
Title of the Manuscript:	Formulation of Anti-tuberculosis Drug Loaded Starch Propionate Microparticles for Controllable Drug Delivery
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljpri.com/index.php/JPRI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. I have observed several grammatical and typographical mistakes entire the manuscript2. Authors tried to formulate ATD drug-loaded starch propionate microparticles. However, they did not show any FTIR spectrum for drugs. Additionally, they should study the compatibility of drugs with starch propionate.3. The presentation of the entire manuscript does not compile with the title of the manuscript.4. Author used several abbreviated forms in the manuscript. Some of them are not written correctly. For example, pyrazinamide gave as PYZ and PYR; Entrapment efficiency (%EE)5. Zeta potential, zeta size, and PDI are essential for synthesizing stable particles. This article is lacking with these data.6. Author only mentioned the drug estimation at specific λ_{max} but did not mention whatmedia they used. If they referred to any article, then they need to mention it.	
Minor REVISION comments		
Optional/General comments	Authors should emphasize more in writing the paper.
