Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Some alternations should be required in order to enhance the quality of manuscript. Major comments are highlighted in track changes inside the manuscript.</p> <p>Abstract section should be revised as it should be written concise. Only Significant points should be mentioned rather elaborating it and it need to be outcome based.</p> <p>Authors should mention and explain about the quadratic polynomial equation and the coded levels taken for the selected experimental design? I could not find it in the results and interpretation of design? Overlay plots and perturbation plot analysis can be added to signify the results and discussion of the obtained responses?</p> <p>Authors should check clearly the References formats presented inside the text as well as in references section as per journal guidelines.</p> <p>Please reduce the length of manuscript as it contains more than 25 pages. Make it brief and revise accordingly.</p>	
Minor REVISION comments	<p>References mentioned in the manuscript are not suitable, So, the authors are suggested to revise the references section properly, add some more recent references (published within 5years, can be relevant to scope of current study) which should be cited accordingly; inside the text, to make it meaningful.</p> <p>Structure and Length of article is fair and balanced, however need some addition of illustrations (Figures, Graphs) which is necessary for results interpretations and significance. Table and Figures captions written inside the text should be checked properly. Table captions should be written as Table 1, not Table No-1 (pls check in Section 3.1 Hygroscopicity Studies of Tofacitinib citrate) Similarly figure legends should be written as Fig. 1, Fig. 2, not figure 1 and figure 2 etc.</p> <p>Authors should check once the grammatical and syntax error in the entire manuscript.</p>	
Optional/General comments	<p>Title of the manuscript should be concise and can be modified as "QbD enabled formulation and evaluation of controlled released Tablets of Tofacitinib Citrate"</p>
