PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	None	
Minor REVISION comments	<ul style="list-style-type: none"> In the title of the manuscript, I am suggesting that the conjunction "AND" should come in between salivary pH and salivary amylase. In the abstract, under introduction, there is a missing word between "MEDIUMS" and "ALSO" and I suggest the word should be "WHICH". I have corrected corrected some typographical errors in the manuscript which I cannot mention all. The word "SHOWING" in the title of Tables and Figures is not necessary as tables and figures are meant to show. I have edited the titles of the Tables and Figures. I think it should be THE RESULTS "OF" OUR STUDY and not THE RESULTS IN OUR STUDY. 	
Optional/General comments	The paper was carefully written in such a way that, even someone without a science background could read and understand.
