PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Suggestions for authors: The ms must be reviewed carefully. 1. Some corrections are indicated in red color. 2. To write α -amylase in the text (review) 3. In order to write in the same style, some references indicated in red color must be revised and written correctly. 4. To review the spaces before the parenthesis in the text.	
Minor REVISION comments	Minor correction is required.	
Optional/General comments	This is an interesting paper, the content adds knowledge in the field of research. In fact, I wrote a book of Experimental Biochemistry that includes the measurement of alpha amylase activity in human saliva. It is easy to do it and very interesting.	

PART 2:
