Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The research is executed well and it may add valuable information to the existing literature on biological applications.</p> <ol style="list-style-type: none">1. Please check the manuscript for linguistic point of view2. Please justify over all update recent cite and any specific diseases ur recommend topic in review3. Full stop is missing in many places.4. Future direction for the study should be expanded by discussing pros and cons. The abbreviations should be provided in the place where it is first stated.5. Needs minor revisions prior to the amendment of the main content6. An abstract is often presented separately from the article, so it must be able to stand alone. Hence the problem statement, aim, novelty and results of the study have to be included in.7. So many people are input same aspect pleases justify8. <i>Piper nigrum</i> rewrite and added mechanisms for human being9. Over all improve every part of manuscript10. Conclusion<ul style="list-style-type: none">* Kindly improve to include in more concise and significant results.* Should include some present challenges and possible routes to improve them. Describe them in more details.	
Minor REVISION comments	<ol style="list-style-type: none">1. Language: There are a number of language errors (tenses, singular/plural) and incomplete sentences in the script. Please check the sentence structure, tenses and language carefully in the revised manuscript.	
Optional/General comments		

PART 2:
