PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">Legends of each figure could be expanded by adding more details. Currently, most of them are just one sentences and do not provide sufficient information.Unit for Abs (on y-axis) on figure 5 is incorrect.Results and discussion: Discussion of the experimental results could be further explained and if possible, compared with other similar studies.	
Minor REVISION comments	1, Quality of most of the figures needs to be improved.	
Optional/General comments	Authors have a done an excellent job conducting several relevant experiments. A Pharmacological study would make this manuscript more robust.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
