### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The title of the article is very interesting and informative, giving a clear picture of the topic</li> <li>2. ABSTRACT : The abstract is complete and describes the content of the article as a whole, thus providing clear information about the content of the article. Writing too many keywords and lacking focus, please revise the focus with important words related to the topic of the article.</li> <li>3. BACKGROUND The background is very clear, provides an understanding of behavioral models in the application of nursing care, but has not discussed the concept of the patient with the larynx, and how the patient's disease affects the behavioral system. Please the authors add the concept of the laryngeal carcinoma which is associated with behavior so that the reader understands that this behavioral model is appropriate to be applied in nursing care for patients with the laryngeal carcinoma.</li> <li>4. Nursing diagnoses have been described according to the data on the patient profile. Please add a diagnosis related to complaints of tiredness and fatigue during activities, and please review nursing problem about verbal communication after laryngeal surgery.</li> <li>5. Nursing interventions have been prepared completely and refer to behavioral models.</li> <li>6. Evaluation please add for nursing diagnosis lack of knowledge.</li> </ol>	
<b>Optional/General</b> comments	<p>The topic of this manuscript is very interesting, discussing about Application of Johnson's Behavioural Model in patient with carcinoma of larynx .</p> <p>Please make a revise some of the sections as indicated in the comments above.</p>
