PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	After referring to experimental laboratory work, the authors should add as many in vivo studies as possible with related protocols and clinical results . It would be interesting to have works that indicate dosages and relative results, if available, in the short, medium and long term in relation to the treated neoplasms. Also if reporting data of works done on small numbers	
Minor REVISION comments		
Optional/General comments
