PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	An interesting high-volume and high-quality paper recognizing the problem of surgical site infection and popular attitude towards it. Both methodologically and conceptually, the paper is of high importance. Authors conclude that better strategies are needed to promote patient awareness of and engagement in reducing surgical site infection risks and complications and developing adequate preventive approaches.	
Minor REVISION comments	The paper requires proof reading and language check. Few grammar & thesaurus mistakes are present. For example, the use of 'was' and 'be' together (...questionnaire was be validated...), etc.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
