PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>ABSTRACT at the level of the objective it is necessary to write PTSD without abbreviation (post-traumatic stress disorder) then you can write the abbreviation and give a simple definition of PTSD. at the level of the methods, it is necessary to mention all the questionnaires used and if they are validated. at the level of the results: the total prevalence of the subjects and the prevalence of the two sexes must be mentioned.</p> <p>INTRODUCTION correct this sentence: Separation anxiety disorder, disinhibited social Engagements disease, post-traumatic traumatic stress, Posttraumatic stress, and adjustment disorders are examples of these [2]. Give a more detailed definition of ptsd and its reference. Your purpose of your study is unclear.</p> <p>METHODOLOGY: what does CL mean? It is necessary to mention all the questionnaires with all their details. The age of the participants must be mentioned. It is necessary to mention the procedure of the distribution of the questionnaires. You must mention the p-value.</p> <p>RESULTS The first paragraph has been completely repeated as the result of the abstract, it must be rephrased. what does SD mean? Present sociodemographic data. Remove titles included in graphs. Fix: Graph 1: PTSD ACROSS GEBDER: GENDER</p> <p>DISCUSSION At the beginning, you have to talk about the objective of your study. It is necessary to better discuss your results and compare them in more detail with data from the world literature. Need to add more references.</p>	
Minor REVISION comments		
Optional/General comments
