PART 1: Review Comments

As a whole, the paper is well written and fit for publication.	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The protocol for HPLC has been developed by you or it has taken from a research paper, it need to be cited Please mention the Mass spectrometer conditions too. The concentration of total extract as well as the active constituent better be expressed as micro gm/ gm of material instead of mL. GC-MS analysis was carried out on total extract or steam distilled material need to be mentioned. The identification of compounds in the GC using Kovat's indices using NIST library or with authentic samples need to be mentioned. The mass spectral identification using M+ ion occurrence or other methods be clearly mentioned. The Information provided will give more authenticity to the work carried out by the Researchers.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
