### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This cross-sectional study analyzes the degree of hand hygiene knowledge among a small sample of pharmacy students at a private university. The high degree of response to the survey is noteworthy. The results are positive and the discussion is adequate; however, the conclusion of the abstract should be rewritten similarly to the end of the paper in the sense of talking about the results of the study and not about possible actions to modify them.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
