PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Congratulate authors on taking up a very needed topic for study. It will definitely help prioritise the resources for diagnosis of OSA. There are few important points which need to be addressed before it is suitable for publication.</p> <ol style="list-style-type: none">1. How is the correlation between Neck circumference and BMI. <p>For the quality of research, external validity is very important. So, authors have nicely specified the methodology of how neck circumference & BMI was recorded.</p> <ol style="list-style-type: none">2. Multiple logistic regression model is necessary for accepting of refuting a correlation of NC with OSA, please include in the analysis.3. Review of literature should include more recent articles https://scholar.google.com/scholar?as_ylo=2018&q=neck+circumference+AND+osa&hl=en&as_sdt=0,5 Please include and discussion may change.4. Major Grammar Corrections needed.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
