**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments		
<b><u>Minor</u></b> REVISION comments	<p>The study is well designed. However, the introduction section is a little bit long and sometimes redundant. For instance, the authors mentioned about the "objectives of the study" and hypothesis of the study as well. So, the authors may eliminate the "objective of the study" section as they gave hypothesis and theoretical framework as a chart.</p> <p>The study I suppose created from a thesis as it seems like a thesis. A research article should be shorter. So, the authors may delete the "Operational Definition of Terms" for instance.</p> <p>The authors may give "Significance of the Study" after summary, conclusion and recommendations as IMPLICATIONS</p>	
<b><u>Optional/General</u></b> comments
