PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This article discusses the radiological risk assessment in terms of ingestion dose and cancer risk in selected fruits collected from Niger Delta, Nigeria. From an analytical point of view, this is interesting because the problem of radionuclide in fruits is topical. However, it contains many errors in both form and substance. So, after a complete revision, the article can be published
