

**Review Form 1.6**

Journal Name:	<a href="#">Journal of Scientific Research and Reports</a>
Manuscript Number:	Ms_JSRR_78869
Title of the Manuscript:	The Simulation of Linear Block Algorithm for Modeling Third Order Highly Stiff Problem
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljsrr.com/index.php/JSRR/editorial-policy>

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p><b>The Simulation of Linear Block Algorithm for Modeling Third Order Highly Stiff Problem.</b></p> <p><b>This title is not suitable for the paper, as it does not represent what the author(s) is/are representing in this paper. I'd rather suggest the author(s) rephrase the title as:</b></p> <p><b>"One-step hybrid block scheme for the numerical approximation for solution of third order initial value problems"</b></p> <p>The author(s) need to revisit this work and consider other hybrid points other than <math>i/6</math>, <math>i=0(1)6</math>.</p> <p>The author(s) need to compare numerical examples with other methods in literature with similar order or higher in order to show good performance of the scheme.</p> <p>Recent work in literature up to date need to be considered. The literature review is not much of recent work in this area.</p> <p>The manner of presentation of the work is good.</p> <p>Nonlinear third order problems should also be solved</p>	
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments
