### **PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b><u>Compulsory</u></b> REVISION comments	<p>Give the reference of this protocole of the italic title (pages 3 – 5) Give the precision in time and the moment of sampling. Page 3</p> <p>Add a map to present it easilly. Please make sure that this map has also some geographical elements as houses with pit toilets, industries generating organic wastewater and solid waste page 3</p> <p>Can you rapidly put a graph of precipitations in the year (month to month) page 3 Please, just insert a map to locate the diiferent village or study area in Nigeria and in Rivers state Page 3</p> <p>In the section of the study area, please, add a description of wastewater and solid waste management and also the type of pit toilet used by the population near the water resources and add some pictures presenting activities, houses, wells and streams waters sources and bacteriological pollution sources</p>	
<b><u>Minor</u></b> REVISION comments	<p>Just see directly in the manuscript (remove and add as I indicated)</p>	
<b><u>Optional/General</u></b> comments	<p>Please, it is important to specify if the wells sampling belong to someone and tell us if he accepted the exercise.</p> <p>It is important to show in the section Discussion the potential pollution sources before corroborating with others authors. Moreover, it will be more interesting to specify the link with climate the presence or not of fecal contaminant in water resources while you were sampling in one year month to month.</p>
