

## Review Form 1.6

Journal Name:	<a href="#">Microbiology Research Journal International</a>
Manuscript Number:	Ms_MRJI_86490
Title of the Manuscript:	Genetic Diversity of Bat Rotaviruses.
Type of the Article	Minireview Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalmri.com/index.php/MRJI/editorial-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>“Current surveillance studies on rotavirus focus on humans and, to a lesser extent, on domestic animals and pets [2]. Recent studies have identified new rotavirus genotypes in many wild animals [5], however, relatively little is known about the prevalence of rotavirus in wildlife.” –These sentences are duplicated in “Introduction” and “BATS AS VIRUS RESERVOIRS” section. Please replace or rewrite.</li> <li>“The countries that present factors that are considered important in the appearance of an emerging virus in an area, in which the disease had not manifested itself before, is because they present: poor health structure, as well as deforestation due to the construction of roads and communication channels to distant areas, which facilitates contact with the jungle fauna, together with the agricultural and livestock exploitation carried out by humans in wild species endemic areas, which increases the opportunities for wild animals to come into contact with livestock animals and humans [4,5,6].”- please simplify the sentence of “BATS AS VIRUS RESERVOIRS” section to make understandable.</li> </ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>Spelling should be checked in the whole article.</li> </ol>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
