

Review Form 1.6

Journal Name:	Ophthalmology Research: An International Journal
Manuscript Number:	Ms_OR_82165
Title of the Manuscript:	Study of demographic profile and risk factors in patients with corneal blindness at tertiary health care Centre.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalor.com/index.php/OR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The methodology is to reproduce the work. You need to say how you calculated the results and the programs used to analyze the data. The methodology describes Sample Size: Using the desired margin error of 3% and Prevalence of corneal blindness in the rural population of central India (10) = 0.12% ie 0.012 sample size comes out to be 50.60 rounding to 55 patients needed in the study. And in the results 56. Please correct this inconsistency. Format charts and tables to standardize. Discussion needs more authors and updated. In conclusion, it remains to say what risk factors are in patients with corneal blindness at the Tertiary Health Care Center	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
