This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalor.com/index.php/OR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1.The title is not according to the article.According to the article it was a review of article related to effect of ethambutol on retinal and optic nerve based on functional & structural changes and not HISTOLOGICAL which the title mentions</p> <p>2. In results it was mentioned 9 articles were reviewed ,it will be better to mention the literature review of each article separately so we don't miss out the important information.</p> <p>3.In conclusion need to mention the carry home message like screwing criteria etc</p>	
Minor REVISION comments	There is lots of repetition of words.For example in abstract - introduction it ends with ocular. Study selection RNFL has been used twice	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
