

## Review Form 1.6

Journal Name:	<a href="#">Physical Science International Journal</a>
Manuscript Number:	Ms_PSIJ_75531
Title of the Manuscript:	Quanton fields : evolution and degrees of freedom.
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This paper presents model deals with an evolutionary process of the quaton fields out of a singularity event in the form of space and time fields where a new concept of energy constraining can explain the interactions between those fields. The proposed model may be useful for further understanding of the quanton interactions. The world is on the threshold of the concept of a united universal field with a super-powerful energy. The authors should show some evidences that suggest appropriateness of the proposed a new concept of energy in detail.	
<b>Minor</b> REVISION comments	It is suggested to present the conclusion in detail.	
<b>Optional/General</b> comments	The topic is timely and will be of interest to the readers of the journal.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
