PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ol style="list-style-type: none"> 1. To review the body of the Manuscript, especially in the introduction, a lot of words are added. 2. Some equations are written with the equation editor, others are not (equation (2), (3) and others). it's better to write all the equations with the equation editor 3. It's better to introduce the nomenclature of all parameters of equations 4. The titles of the paragraphs do not comply with the standards: paragraphs 2.1 and 2.2 are in uppercase, and when we come to paragraph 3, the sub-titles 3.1 and 3.2 are respectively in uppercase and lowercase while they are the same types of numbering. we must review this and correct it according to the standards of the newspaper 5. in the methodology part it is necessary to clearly present the FEM schemes and the type of mesh used for the proposed model 6. if it's possible, it's necessary to extend the bibliography reference 	
Optional/General comments	In general the manuscript is good, but it's needs minor revision before being published
