

Review Form 1.6

Journal Name:	South Asian Journal of Research in Microbiology
Manuscript Number:	Ms_SAJRM_89579
Title of the Manuscript:	Probiotic Microbial Growth in Various Carriers (a Review)
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalsajrm.com/index.php/SAJRM/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1- This review is important in one of the topics of the hour, which included accurate information and covered the topic by more than 85%. 2- There are rare corrections that are almost unmentioned, marked in red. 3- By reviewing the percentages of the review content, the following becomes clear: a- The % of probiotic microbes part = 47%. b- The % of carriers part = 20%. c- The % of references = 33%. Therefore, the title does not correspond to the content to a large extent and I suggest changing the title to: Probiotic Microbes and Their Growth in Different Carriers (a review) Instead of Probiotic Microbial Growth in Various Carriers (a Review)	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
