PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper presents a series of geographical realities combined with (old) economic and industrial data from at least 10-15 years ago. There is no thorough, documented analysis of the presented data beyond an attempted SWOT analysis at the end, which has, however, little connection to what was written before and which might itself be copied from somewhere else. Except for the introduction and the references, there is no clear structure of the paper. The list of references is rather short for a review paper and contains no recent titles, so the relevance of the presented data is questionable.	
Minor REVISION comments		
Optional/General comments
